Management Discussion and Analysis

Overview – Financial Performance

Of the total income received by the Company, dividend income constitutes the main earnings. The performance of the Company is directly related to the performance of the Investee Companies. Profit after tax at Rs. 254.82 lakhs is 36.11% higher than Rs.187.22 lakhs in the previous year.

Industry and Business Overview and Future Outlook

Indian Economy registered a growth of 4.96% in the fiscal year 2013, lowest ever recorded during the last 5 years. This combined with high inflation kept interest rate high hurting corporate profitability. Though food prices moderated sharply, inflation continues to hover around 9%.

While Global financial market remained volatile, carrying significant risks, Indian economy was better placed by virtue of its affective forex management policy.

The Company holds investments in equity shares viz., CEAT Limited, Phillips Carbon Black Limited, KEC International Limited, CESC Limited, RPG Life Sciences Limited etc., besides certain investments in other Companies. The Company continues to focus on making long-term strategic investments.

Opportunities & Threats

Post elections, with a stable government at the centre, growth is expect to revive. With stalled projects coming on line and easing of capital availability, the general business confidence is likely to improve. Growth at 6% plus over medium term is likely. Improvement in the investment cycle would ease inflationary pressure, paving the way for overall quality growth.

The Company's investments are predominantly in Companies engaged in Power Generation and Transmission, Auto Tyres & Rubber Products, Electric Utilities, Carbon Black, Pharmaceuticals, Retail etc. Any adverse impact on these industries could possibly have direct bearing on the performance of the Company. Any slowdown in the growth of Indian economy or any volatility in global financial markets, could also affect the business. The Company is also prone to risks pertaining to change in government regulations, tax regimes, other statutes and capital market fluctuations in respect of investments held.

Risk and Concerns

The Company is mainly exposed to market risks in the form of reduction in value of its investments and fall in returns due to dip in the Investee Company's performance.

Internal Control System

The Company has an effective system of accounting and administrative control with adequate system of internal checks that ensures safe recording of all Company's assets and their proper and authorized utilization. The Company has an Audit Committee which on a regular basis, reviews the adequacy and effectiveness of internal control.

Human Resource

Success of every Company is depended on the quality of workforce. The Company believes in retaining the best talent, clearly defining their roles and responsibilities.

Cautionary Statement

Statements in the Management Discussion and Analysis describing the Company's outlook, projections, estimates, expectations or predictions are "Forward Looking Statements" within the meaning of applicable securities laws or regulations. Actual results could differ materially from those expressed or implied. As "forward looking statements" are based on certain assumptions and expectations of future events over which the Company exercise no control, the Company cannot guarantee their accuracy nor can it warrant that the same will be realized by the Company. Important developments that could affect the Company's operations include a downtrend in the Investee Company performance, significant changes in political and economic environment in India and tax laws.
